

Game Fee Discussion Paper.

C21.14

The general opinion of the board is that the ECF should work towards phasing out game fee over time in favour of a pure membership scheme. The aim of this discussion paper is not to pass judgement on this. Instead the aim is to encourage the various leagues, counties, congresses, junior organisations, and any other groups who may be affected, to discuss how they use game fee (if they do so) and any problems they feel would need to be resolved before they could accept a pure membership scheme.

From this the ECF will be better informed as to what they need to do before they can introduce a pure membership scheme, and have a better idea of the time scale that this aim may involve.
