#### **Explanatory Notes**

This document accompanies the ECF Base Voting Register for the year 2018-19 and shows more detail about the events that have made up the games allocation of each organisation with representation on the ECF Council.

It is provided to enable these organisations to check how their voting total has been reduced and to seek clarification or correction where necessary. It is also provided for transparency.

The document also enables unrepresented organisations that have allocated their game allowance to see that it is being used as they intended.

Because of the large number of entries in the original data event names have been grouped so that, for instance, "Market Snodsbury Congress" might include "Market Snodsbury Congress: Open", "Market Snodsbury Congress: Intermediate" etc. A more detailed listing of individual member calculations is available on request.
